ILIA SUDAKOV

tg: @iasudakov ✧ Moscow, Russia
iasudakov@edu.hse.ru ✧ github.com/iasudakov

EDUCATION

Higher School of Economics — Moscow, Russia
Master of Modern Computer Science — Sept 2025 - present
Specialization: Artificial intelligence

Yandex School of Data Analysis — Sept 2023 - present
Specialization: Data Science — GPA 9.0/10

Higher School of Economics — Moscow, Russia
Bachelor of Applied Math and Computer Science — Sept 2021 - June 2025
Specialization: Machine Learning & Applications — GPA 8.5/10

INTERESTS AND SKILLS

Key interests: Generative models: Diffusion models, Autoregressive models, Optimal transport, Schrodinger Bridges

Maths strengths: Bayesian methods, Probability, Matrix computations, Statistics, Calculus, Algorithms

DL/ML strengths: Generative modeling, Efficient DL, CUDA, NLP, RL, Optimization

EXPERIENCE

Yandex Research: *Research Intern* — Moscow, Russia
Topic: Generative Modeling in CV — April 2025 - present
Scientific advisor: D. Baranchuk

Bayes Lab, HSE: *Thesis student* — Moscow, Russia
Topic: Entropic Optimal Transport — Dec 2024 - June 2025
Scientific advisor: D. Rakitin

HDI Lab, HSE: *Research Intern* — Moscow, Russia
Topic: Off-Policy Evaluation for Recommender Systems — Aug 2024 - Dec 2024
Scientific advisor: S. Samsonov

PAPERS

- **Representation-Space MMD for Diffusion Language Models** — ICLR ?, 2026
- **A Spectral Perspective on Continuous Diffusion Language Models** — ICLR ?, 2026
- **Registers Matter for Pixel-space Diffusion Transformers** — ICLR ?, 2026
- **Revisiting Autoregressive Models for Generative Image Classification** — ECCV, 2026
- **Asymptotic Analysis of the Ruppert–Polyak Averaging for Stochastic Order Oracle** — RJND, 2024

TEACHING

Faculty of Computer Science, HSE — Moscow, Russia
Teaching fellow — Sept 2025 - present
Courses: Deep Learning

Teaching assistant — Sept 2022 - present
Courses: Probability theory, Calculus, Math Statistics

Yandex School of Data Analysis — Moscow, Russia
Teaching fellow — Jan 2026 - present
Courses: Generative modeling in CV

EXTRA-CURRICULUM COURSES

Skoltech, SMILES Summer School — Harbin, July 2025
YSDA, CV Week Intensive — Moscow, Dec 2024
Sirius, SOTA Results Reproduction School — Sochi, Oct 2024

PROJECTS

- **Registers Importance for Pixel-space Diffusion Transformers** — Yandex Research, 2026
- **Zero-shot Generative Classifiers** — Yandex Research, 2026
- **Discrete Flow Matching/Schrodinger Bridge** — Skoltech, 2025
- **Adversarial Diffusion Distillation of MAR model** — Yandex Research, 2025
- **One-step Entropic Optimal Transport** — HSE, 2025
- **Neural Optimal Transport** — HSE, 2025
- **Consistency Diffusion Distillation** — YSDA, 2024
- **Riemannian Optimization for Link Prediction Using Tensor Decompositions** — HSE, 2024
- **Global gradient optimization methods** — HSE, 2023

HONORS

IZhO, IEPhO - gold medals

National Physics Olympiad - prizewinner, best theory
